

## Besicomm Terminal App Web Page

The Besicomm Terminal App makes it possible to integrate any customer specific website. It is possible to enter the identity card or personnel number. This enables identification via the Legic reader. The App also offers functions for controlling timeouts and termination.

Example of an integrated web page for the reservation of a Co-Working Space:

 Co-Working Space 

Please register 05.Jul 2019 13:14

Hi Sally Hops, you are registered already.
